

## Grove cranes

For almost a century, Grove has supplied equipment for the world's most important lifting projects.

With a range of mobile telescopic cranes from 8 t to 450 t capacity Grove has a lifting solution for you.

Grove cranes are equipped with the latest technologies such as:

- > MEGATRAK® suspension system
- > TWIN-LOCK® boom pinning system
- > MEGAFORM® boom design
- > WADS working area definition system
- > LMI load moment indicator

## Grove used cranes

By choosing Grove used, you buy a valuable used crane and a brand you can rely on.

A high quality, Grove used crane provides a long service life and the highest residual value on the market.

> **Ready to Work** - All used cranes are thoroughly checked by technicians before being released for sale.

> **Available Warranty** - An optional warranty program provides peace of mind; and all repairs use only genuine OEM parts.

> **Expertise** - Manufacturer certified experts control each part of the used crane sales process to ensure maximum customer satisfaction.

## When buying from the Grove used team...

...you buy directly from the manufacturer

## Why choose a Grove used crane?

- > Reconditioned cranes provide shorter delivery times in most cases
- > Lower cost than a new crane
- > Can be retrofitted for specific country regulations
- > Access to Grove training, services and OEM parts
- > Crane customization to meet your specific requirements

## Services

When you buy a used Grove crane you buy Grove service too!

- > Access to 24/7 Grove service support
